DETAILED ACTION***Election of Species***

This application contains claims directed to the following patentably distinct species of the claimed invention:

<i>Opposing Force Species</i>	<i>Opposing Force</i>
<i>OF-1</i>	<i>Hydraulic</i>
<i>OF-2</i>	<i>Pneumatic</i>

<i>Displacement Fluid Species</i>	<i>Displacement Fluid</i>
<i>DF-1</i>	<i>Liquid</i>
<i>DF-2</i>	<i>Gas</i>

<i>Filtration Zone Species</i>	<i>Defined By:</i>
<i>FZ-1</i>	<i>Concentration</i>
<i>FZ-2</i>	<i>Pressure</i>

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of each species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. A selection from each of the three groupings above must be made. The group of claims examined must all read on each of the elected species, or be generic thereto. Applicant must supply a complete list of all claims to be examined based their generic status and/or specific status (i.e., read on the elected species). Applicant is reminded that the status identifier "Withdrawn" must be used to identify non-elected claims. An

argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
